SENIOR EXPERIENCE DESIGNER

Product Design | Interaction Design | Design Systems | Design Engineering | Visual Design

PROFILE

Multidisciplinary designer with 5+ years of experience designing digital products, interfaces, and visual systems across technology, finance, retail, and creative projects. Currently working as a **Senior Experience Designer at Konrad Group**, with experience spanning product design, interaction design, design systems, visual design, prototyping, and design engineering. Background in **visual art, illustration and sound design** informs an experimental approach to digital experiences, combining strong visual direction with practical product thinking.

EXPERIENCE

Senior Experience Designer

Konrad Group | Toronto, Canada

June 2026 - Present

- Lead experience and interface design across digital products and client projects for established brands including **RBC, Scotiabank, Sun Life, PC Optimum, and American Express**, translating complex requirements into clear and cohesive experiences.
 - Design scalable interfaces and interaction patterns within established design systems.
 - Work closely with designers, developers, strategists, and clients throughout the design and delivery process.
 - Contribute to projects across financial services, retail, insurance, and technology.
 - Participate in the agency's interview process and contribute to team-building and internal initiatives.
-

Senior Product Designer

BABCO Design Agency

March 2023 - September 2025

- Led product and interface design for apps, marketing sites, database products, retail experiences, and developer tools.
 - Built and maintained design systems in Figma to create consistent experiences across products and platforms.
 - Collaborated with developers, designers, and clients to refine features, communicate design decisions, and bring concepts into production.
 - Designed the visual identity for Tembo, contributing to its broader brand and digital presence.
 - Worked across product strategy, interaction design, visual design, prototyping, and client presentation.
-

Graduate Research Assistant

School of Design, George Brown College

September 2025 - April 2026

- Contributed to design research and development projects exploring interactive and immersive experiences.
 - Worked across UX, visual design, prototyping, and emerging technologies in collaboration with faculty and research partners.
-

UX/UI Designer

Freelance

October 2021 - Present

- Deliver end-to-end product and interface design for startups and technology companies.
 - Design user flows, wireframes, prototypes, visual systems, and high-fidelity interfaces for digital products.
 - Adapt design approaches across different industries, product stages, and technical requirements.
 - Contributed to projects including Character.ai and other early-stage technology products.
-

Storyboard Artist

Freelance

January 2022 - August 2022

- Developed visual storyboards and concepts for animated advertising projects.
 - Directed visual storytelling and worked with writers and animators to align narrative, composition, and brand direction.
-

Illustrator & Graphic Designer

Maat Agency | Tehran, Iran

March 2019 - May 2022

- Created illustrations, digital campaigns, and visual assets for social media and advertising.
 - Collaborated with motion designers to develop illustrations for animated content.
 - Created branded visual work for clients including Huawei.
 - Developed pitch visuals and campaign concepts used to support new business opportunities.
-
